

TalkTelecom

"We listen so you can communicate"

About

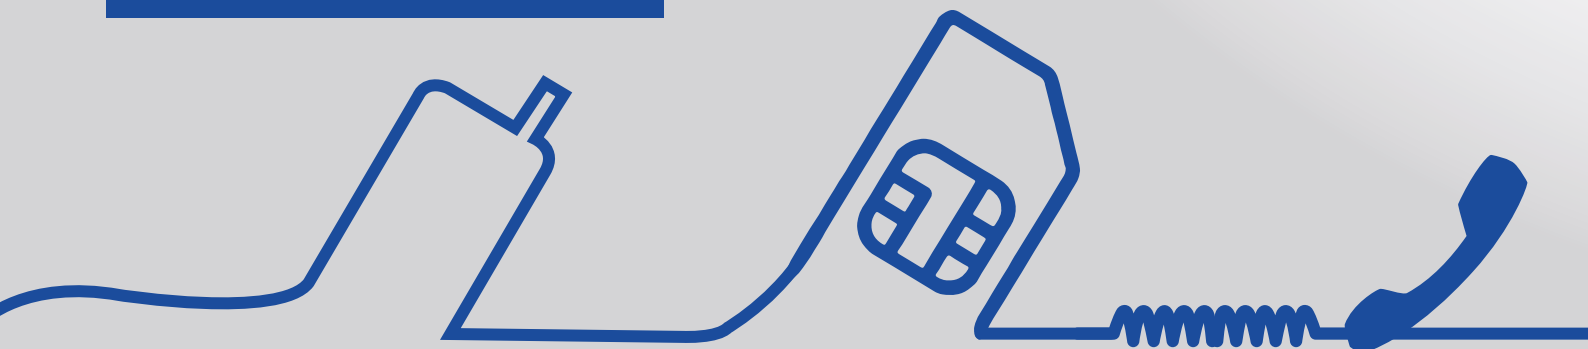

Talk Telecom is a leading independent business communication specialist, working with businesses to assess their current and future communication requirements. Through careful consultation we will identify and recommend the right solution to meet and exceed your technology aspirations. Our independence enables us to work with multiple vendors to ensure the most resilient and cost effective solution is deployed. The solution will be both flexible and scalable to accommodate the changing needs of your business.

With over 25 years' experience in the SME and Enterprise space, Talk Telecom provides outstanding service, along with some of the most competitive pricing in the UK. We have access to all of the UK's major Tier One carriers and associated application providers, and will recommend the most appropriate solution to deliver a high quality service and value for money to your business. As an independent provider, Talk Telecom has no ties to any specific carrier and will always provide true, impartial advice.

By joining Talk Telecom, you can consolidate your communication suppliers and reduce costs for all of your mobile, landline, internet and cloud telephony requirements.
